

Mckinley Shallow

Presidential Stainless Sinks are made with 304 stainless steel. This ensures your sink to be thick, strong, and easy to clean. We also coat the exterior of the sink with sound dampening pads and heavy spray coating, providing your sink with optimal quiet sound during use. All Presidential Sinks are polished with a heavy brushed finish to minimize and hide wear as you use your sink. 18 gauge is the industry standard thickness for stainless steel sinks on the market. Our 16 gauge sinks are essentially 25% thicker for extremely long durability under the heaviest of use.

Features

- Stainless Steel | Brushed Stainless Finish
